Safety concerns prompt changes at Crestline intersection

SAN BERNARDINO - The Board of Supervisors on Tuesday approved a resolution that will allow the County's Department of Public Works to install a stop sign at an uncontrolled intersection on Lake View Drive in Crestline.

Public Works staff took a close look at the intersection of Lake View and Cresta drives after a resident voiced concern about driver safety at the uncontrolled junction. The probe revealed view obstructions at the intersection, and County traffic engineers determined that requiring traffic entering Lake View Drive from Cresta Drive to stop before doing so would improve public safety.

The Board of Supervisors had to pass a resolution declaring Lake View Drive a through highway in order for Public Works to install a stop sign on southbound Crest Drive at Lake View Drive.

"This intersection will be safer now thanks to the watchful eye of one of our mountain residents," Second District Supervisor Paul Biane said. "I encourage residents to call the County when they see unsafe conditions on any of our roadways."
